I've seen impact on my family. I've seen impact on my community and in my workplace. So, if you wish to dig deeper into your faith so that you can impact and change on yourself, your family, your community, your church, consider Churches Learning Change and Faithwalking. Because they will help you grow and dig deeper into your faith and have a stronger relationship with God.

Patty

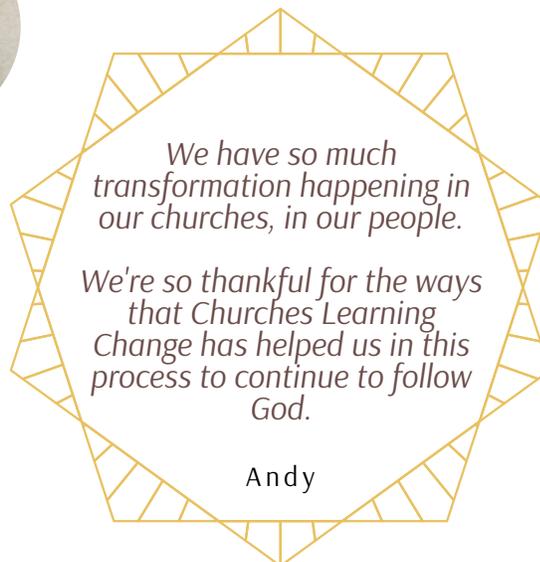

I have had such a phenomenal experience with this Churches Learning Change program. The personal growth, the opportunity not only network with other like-minded people, but to share experiences— both life and spiritual. This whole environment and all of the teaching modules really captures so many different parts of what we need to know to build our skills and our awareness.

Jack

This has enabled our church over these last years to come into a much more communal way of engaging ministry and mission.
Nancy

There is no doubt in my mind that the CLC/Faithwalking process has been good for our church and will be an answer to a lot of our questions.

Steve

It was just phenomenal to see a lot of the stereotypes that I had growing up thinking about the church not apply.
Jeff

I've been involved in CLC for about five years now, and the one thing that I love about this is that it helps me develop a whole new perspective on how to look at my church, our mission, God's calling for us. And personally, I have used what I have learned at CLC in my classrooms, with my colleagues, in my own life. It has been a fabulous program.
